DESPERATE FIGHT WITH THE MOONLIGHTERS.

The Republic of Colombia Wants a New Canal Treaty.

LONDON, March 20. — The "Observer" thus closes its tribute to Longfellow: "It is scarcely too much to say that since the death of Byron no living English poet enjoyed so much popularity as Longfellow."

DUBLIN, March 26. — The recent shooting affair near Thurles, Tipperary, was a sanguinary skirmish. Thirty men attacked the house of a farmer suspected of paying rent and while the party were firing into the house three policemen in ambush fired on them. The moonlighters fled and were pursued by police who fired thirty rounds of buckshot after them. The road was discovered stained with blood for a distance of half a mile and one party who had fallen at first fire found near the attacked house mortally wounded.

At Rathdowney, County Queen's, Saturday, Rev. Mr. Feehan, a priest, was prosecuted for using seditious language. The charge was that he read a paper purporting to be a statement of the Bishop of Nevada that if he (Bishop) had been imprisoned as a suspect he would have issued a manifesto calling the people to arms instead of urging them to pay rent. The magistrate ordered Feehan to find £400 bail or go to prison for six months. Feehan refused to give bail and was taken to Maryboro prison. He was made to travel 20 miles across the country escorted by cavalry and infantry, authorities fearing a collision with the populace if he should be taken by railway.

In the commons the under secretary of foreign affairs said that the government was considering the representation of the United States regarding trial or release of Americans imprisoned under the coercion act.

Harcourt, home secretary, writes a letter refusing, in regard to visits, further indulgence to Dr. Lamson, convicted of the murder of his brother in-law.

ST. PETERSBURG, March 25.—Severity has again regained the upper hand and many arrests have just been made at Moscow, and people of position, such as Alexander Bolourtine, relative of the chief of police of Warsaw, condemned to transportation by administrative measure, that is, without judgment, in September last, and left provisionally at large, were arrested the other day and sent to Siberia. This measure was resorted to in consequence of the discovery of a depot of arms and military uniforms intended to serve as *pass partout* for these clothes. With them, just at the close of the year, several pseudo knights of St. George endeavored to mingle with those who, according to annual custom, approached the emperor's person. More than sixty arrests were made at Karkoff. In Macavas street, in this city, where several important arrests were made, two women have just been discovered in trituration of dynamite. They were denounced by their former servant, Capo, who, however, was ignorant of what they were fabricating.

DUBLIN, March 25.—There can be little doubt fenianism is terribly rampant here.

There have been continual disturbances in Galway, between the 88th regiment (the Connaught rangers) and the 84th, an English regiment. On Thursday night the Connaughts, assisted by the mob, attacked a picket of the English and cheered for Ireland. There were several bayonet wounds on both sides.

LONDON, March 25.—The race for the Liverpool spring cup was won by the American bred horse Wallenstein; Valour second, and Dreamland a bad third.

BERLIN, March 25.—The 'Tageblatt' states that negotiations have taken place between Vienna and St. Petersburg on the subject of an interview between Czar Alexander and Emperor Francis Joseph.

BERLIN, March 25.—The 'Krenz Zeitung' expresses doubt as to whether the Emperor of Russia has sufficient power at home to make his resolve in favor of peace prevail.

VIENNA, March 25.—Four children have been kidnapped from Gratz.

NAPLES, March 25.—Sarah Bernhardt is unable to perform again. She is spitting blood.

ST. PETERSBURG, March 27.—Officials are investigating along the line of the St. Petersburg and Moscow railroad with the object of discovering a mine of which some Nihilists recently gave information.

LONDON, March 27.—The coasting steamer Pelton foundered in Bristol channel and 18 men were drowned.

A desperate affray occurred at Cloghan, Kings county, Ireland, between soldiers and the emergency men. The latter discharged a revolver and several were arrested. Attempts were made yesterday to blow up a house belonging to Mahyn, agent of Lord Clanbrooke's estate.

Dispatches from Ireland report a case in which a disguised band cut off the nose of a man because in the poor laws contest he canvassed in opposition to the Land League candidate.

O'Donohue says the defeat of Gladstone's ministry would be fatal to the best interests of Ireland. It would hand over the Land Act to those who would do their best to defeat its working. He considers that, if wise counsels prevailed, the people would already be contented, and that cloture is the legitimate assertion of the majority.

PANAMA, March 17.—A resolution has been submitted to the Colombia Congress calling upon the Executive to give one year's notice to the United States of the intention of the government of Columbia to withdraw from the stipulations and obligations of the treaty of December 12th, 1846, between the two countries. It also authorizes the Executive to enter into new treaties with the United States and the Spanish American republics of the continent with a view of conciliating, if possible, all legitimate interests concerned in the free transit of the Isthmus of Panama; and more particularly with regard to the inter-oceanic canal enterprise. Article 35 of the treaty of 1846 is particularly condemned as vague and not easy of interpretation, and likely to bring about discord between the contracting parties. The resolution is supposed to pave the way for a joint guaranteed neutrality between the republics of the New World and the commercial nations of the Old World in behalf of the canal.

LONDON, March 26. — It is said the Pope declares he will not receive the Emperor Francis Joseph at the Vatican, if the Emperor visits King Humbert at Rome.

The poet Oscar Wylde,
The name proclaims the man.
In innocence a child;
One of the æsthetic clan.
Too practical by half are we,
Twixt fiddlededum and fiddledede.
To see the poetry.

It is not wild in us to assert that the beautiful Easter Cards just received are far more elevated in sentiment and poetry.

DR. LEAS'
SOLUBLE PHOSPHATE OF IRON.

Clear as spring water and tasteless; has the advantage over all ferruginous preparations of containing Iron and Phosphorus, which are the elements of blood. It cures *chlorosis, pains in the stomach, difficult digestion, dishearchoea, anæmia, general debility and poorness of the blood*, and agrees especially with the most delicate stomachs.

WOMEN'S AND CHILDREN'S DISEASES
No more Cod-Liver Oil.
Grimault's Syrup of Iodized Horse-Raddish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for COD LIVER OIL and has been found most beneficial in DISEASES OF THE CHEST, SCROFULA, LYMPHATIC DISORDERS, GREEN SICKNESS, MUSCULAR ATONY and LOSS OF APPETITE. It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in DISEASES OF THE SKIN. Further, it will be found to be of great benefit to young children subject to HUMORS and OBSTRUCTION OF THE GLANDS.

GRIMAULT & CO.'S MATICO, CAPSULES AND LIQUID.

Where all other medicines have failed these preparations will always effect a cure. They insure a rapid and extraordinary cure of severe, recent and chronic cases of private disease. They are used in the Hospitals of Paris by the most celebrated physicians and are found greatly superior to all hitherto known mineral remedies, Copahia and Cubebs. The injection is used in recent, and the capsules in the more chronic cases.

DUSART'S SYRUP OF LACTO PHOSPHATE OF LIME.

TONIC, RECONSTITUENT and DIGESTIVE, of prime order, particularly suitable to FEEBLE SUBJECTS, CONVALESCENTS, OLD PEOPLE and RICKETTY CHILDREN, who find in them CALCAREOUS ELEMENTS entering into the CONSTITUTION OF THE BONES. Well adapted to LADIES IN THE FAMILY WAY, and WET NURSES (whose milk it enriches).

ASTHMA! ASTHMA!!
GRIMAULT & CO.'S INDIAN CIGARETTES

ASTHMA, NERVOUS COUGHS, CHRONIC LARYNGITIS, HOARSENESS, LOSS OF VOICE, FACIAL NEURALGIA, and INSOMNIA, are rapidly relieved by using these CIGARETTES.

SICK HEADACHE! NEURALGIA!
GRIMAULT & CO.'S GUARANA

A single powder of this vegetable production is sufficient to cure instantly the MOST VIOLENT SICK HEADACHE. It is the most valuable remedy against DIARRHŒA, DYSENTERY, and all disorders proceeding from derangement of the Stomach or Bowels.

WEDNESDAY MORNING, MARCH 29TH, 1882.

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

THE CONDEMNATION OF THE GOVERNMENT.

The report of the dry dock committee reached the readers of this journal yesterday. It is a comprehensive epitome of the evidence taken during the protracted session of the committee who labored assiduously to drag out the truth from men who, in some instances, proved to be unwilling witnesses. It is not intended to conduct readers through the mass of evidence and correspondence by which the committee arrived at a decision; nor do we purpose discussing at any length the able and well-digested report of the result of their labors. The committee find the government guilty of gross incapacity and misrepresentation. They find that they misquoted official dispatches to conceal the fact that at least 6000 tons of cement beyond the original 650 tons were necessary to complete the drydock; that the chief commissioner, not satisfied with having made the provincial laws a laughing-stock for lawyers and students throughout the Dominion, tried his "prentice hand" at dock building and *actually altered the specifications after they had been approved by the Admiralty*; that the resident engineer moved the site of the dock 43 feet 6 inches without the knowledge or consent of the Admiralty; that the cement used and on hand is of an inferior quality and utterly unfit for use in the drydock; that no calculations as to the probable cost of the dock were ever made by the chief commissioner before he stood up in the House and pledged his government to the completion of the dock for a sum within the subsidies offered by the Dominion and Imperial governments. The committee further express the opinion that the cost of the dock will exceed the subsidies by a sum approaching at the very least $250,000. Such is the gist of this able and truthful document, prepared by a committee (be it remembered) a majority of whose members one year ago voted with the government, and gave them their support in the vain belief that the ministry were actuated by a spirit of truth and fairness and would not stoop to the meanness of garbling official dispatches and other documents. Those members have had their eyes opened. Entering the committee room prejudiced in favor of the government, they have left it fully impressed with the belief that the ministry are entirely unworthy of public confidence. The committee have not shrunk from the duty of placing before the country their impressions and the report is now before the House and will come up for disposal to-day. The ministry are now on their trial before a House in which they have heretofore commanded a majority of from five to seven. Even now a majority of the members may be said to entertain predilections in favor of the party which we have always contended have constantly abused public confidence, concealed the true condition of affairs, and carried their measures by a constant resort to the most discreditable tactics. The mass of evidence is so overwhelming, the testimony so clear and convincing, that we cannot see how a single disinterested member can hold up his hand in defence of a policy which having been conceived in iniquity was brought forth in sin.

TIMELY DISCOVERY.

The discovery of an intention on the part of the local government to alienate the timber lands along the southern passes of the Rocky mountains with the object of throwing them into the hands of the Northern Pacific Railway Company was made in the niche of time. Had the leases been made the Canadian Pacific Syndicate would have been forced to pay heavily for all the timber that they required and Mr. GALBRAITH, M.P.P., and a few immediate friends would have grown enormously rich from the proceeds of the sale of the timber. The government will now scarcely venture to grant the lease, as the Dominion government will undoubtedly protest strongly against the alienation of valuable lands which are indispensable to the early construction of the Canadian Pacific railway through British Columbia.

To Business Men and Others.

Preliminary work is at present in progress for the publication of a

RELIABLE DIRECTORY

of this province which will contain the names of all residents, a classified list of advertisers, and complete information relative to trade, commerce, manufactures, agriculture and climate, governmental affairs, banking and finance, insurance, corporations, hotels, public buildings, steamship lines, railways, real estate, gold and coal mining, fisheries, timber, &c.

Full information in a comprehensive form and strongly bound for office use.

Mr. WILLIAM WOLZ has been specially engaged and will on or about April 1st visit the various country districts on the Island and Lower Mainland, New Westminster, Burrard Inlet, Yale, Nanaimo, Comox and Cowichan. Local agents will be employed in distant parts of the province. No time or expense will be spared to make this, the first volume of the NEW B. C. DIRECTORY, complete in every respect. Advertisements for those residing within the province payable on presentation of book; if for non residents, payable in advance. R. T. BITTERNESS OF DEBATE IN THE ENGLISH COMMONS.

A New Panacea for Ireland.

NEW YORK, March 13.—The following incident of a debate in the House of Commons is furnished in a letter to the "Herald" from Dublin:

During the debate on the vote for military and police expenditure in Ireland an English member, Col. Barne, said in his speech that he had heard some persons suggest that the outrages in Ireland might be stopped by hanging the three priests nearest to where the outrage was committed. He did not himself advocate that system, although he was of the opinion that it would stop the outrages, but he thought that the residents in the districts where the outrage might occur should be made to pay for the cost of the presence of the militia on the same system as had been tried and found quite successful in India.

Mr. O'Donnell was on his feet as soon as the speaker of this disgraceful speech had resumed his seat, and said that a short time ago the "Pioneer," a leading newspaper of northwestern India, expressed its great regret that among a very large portion of the population of India there existed a feeling of absolute loathing against English officials. It is very probable, continued Mr. O'Donnell, that if the hon. and gallant member who has just spoken was an official in India we should have some clue to the cause of the feeling I have mentioned; but I do not think it would exalt the dignity of this house or of the country to devote too much attention to the opinions of the hon. and gallant member.

Mr. T. D Sullivan did not let the gallant colonel off quite so easily. The Ashantee speech to which we have listened, he said, is not likely to receive any attention from the government. The operations suggested by the hon. and gallant member had been already tried in Ireland and failed. The hanging and banishment of priests had been tried and out of that long struggle the priests had come victorious. I beg leave to tell the hon. and gallant hangman that his proposition breathes a spirit of brutality and not the spirit of the age and that the day is past when such an idea could be revived in Ireland.

Subsequently Mr. Sullivan withdrew the expression "hangman."

The above is one only of several bitter passages which have lately taken place between the Irish and English members. In fact, the whole tone of the debates on the Irish question is becoming more and more violent and personal. Things are said which in the old duelling days would have been settled outside with the pistol, and last session would have brought suspension on several members. But in this session passion and recrimination, and the words that tell of open hatred and contempt, are allowed free scope. The irrepressible conflict between England and Ireland rages with greater violence than ever wherever the two races are in contact.

Arizona.

TOMBSTONE, March 26.—Mr. Peele, engineer of the Tombstone Mill Company, was assassinated in his office at Charleston last night by masked men, who entered the office and shot him down.

A special from Charleston says the assassination of M. R. Peele, last night, adds another name to the long list of assassinations and murders which have taken place here. Mr. Peele was son of Judge B. L. Peele, formerly of Los Angeles, and now of Tombstone. He was an educated and refined man and respected by all who knew him. The body was taken to Tombstone, at which place burial will take place. It is impossible to assign the motive for the deed unless it be that of robbery. Assassins undoubtedly intended to kill Austin, superintendent of the mill, also, but by his quick movement in dropping to the floor he frustrated the plan. In their flight one of them dropped his hat and mask, which may give some clue to his identity.

Used to say, "Boys, if your blood is out of order try Burdock tea;" and they had to dig the Burdock and boil it down in kettles, making a nasty smelling decoction; now you get all the curative properties put up in a palatable form in Burdock Blood Bitters. Price $1 00, trial size 10 cents. *

A Wretched Score.

A score of years is a long time to look back upon, but when attended with continual suffering, it seems almost a century; and all this pain could have been avoided if, when your liver commenced to trouble you, you had taken Burdock Blood Bitters. Price $1 00, trial size 01 cents. *

Stomach Ache.

We all know what it is; we acquired a perfect knowledge of the "Pet" in our youth, after a raid on the green apples we were expressly forbidden to touch. Our mother gave us Perry Davis' Pain-Killer then, and strange to say no other remedy has been discovered to this day to equal it. *

As a purifier of the blood, Ayer's Sarsaparilla has no equal. It wonderfully improves the complexion, and brings to old and young the bloom of health. *

What Some People Say..

That the Dakota will soon take the place of the Idaho on the Victoria route.

That the premier was engaged all day yestesday and far into the night in writing a minority report for Messrs. Galbraith and Helgesen.

That the conspiracy to deprive the province of the timber lands along the southern border will be defeated with the government.

That the R. E. church conversazione, set for to-morrow evening, will be the last and best of the series.

That the ladies are exerting themselves to make the affair very pleasant to all visitors.

That it was currently reported on the streets that it blew yesterday.

That two men in Kansas had a dispute as to who was "next" in the barber's chair and the only way they could decide it satisfactorily was to kill the barber and shave themselves.

That Joseph Fletcher, a Vancouver, W. T., lawyer, is missing and is believed to have stepped into the river in a fit of aberration. He was a man of high repute.

That the O. R. & N. Co. have put on a line of fast steamers between Astoria and Portland.

That Scoville has no hope of a bill of exceptions being granted in the Guiteau case.

That on the 27th inst. snow was ten feet deep at St. John, N. F., and the roads blocked in all directions.

That

There was once a maiden all forlorn
Whose delicate nerves were shattered and worn;
She signed from eve till early morn.
And all because of a painful corn
On her toe.

That President Arthur will veto the Chinese bill.

That 4000 Chinese are coming to British Columbia.

That the advertisements of R. Carr in this issue contain information of interest to the general public.

That Mr. Speaker should have exerted his authority on Monday and prevented the use of shocking bad language by the attorney-general. Mr. Speaker was never credited with a large amount of knowledge, but it was never before thought that he played the part towards the House that the bump does to the log.

OVERBOARD.—There was quite an excitement caused on the H. B. Co.'s wharf yesterday morning by a Chinaman falling into the *chuck* between the Enterprise and dock. It seems that just as he was going aboard the plank was shifted and John was thrown off. He was, however, quickly landed by officer McLeod and the mate with the help of a line none the worse for his bath except a good wetting and the loss of a pair of shoes.

HANDSOME CUP.—Messrs. Short & Simpson have presented to Capt. Fletcher, Victoria Rifles, No. 2, a handsome silver cup won by that officer at the V. R. Association meeting in this city. The cup is beautifully engraved and bears this inscription: "Presented by Short & Simpson to Capt. E. Fletcher, Victoria, B. C., March 28th, 1882."

"NORTHWEST ENTERPRISE."—The first number of the above weekly published at Anicortes, W. T., came to hand yesterday. It is likely to be a well conducted sheet issued by the editors and proprietors, Alf. Bowen & Co., at or near old Whatcom. We wish our young contemporary every possible success.

FOR NEW WESTMINSTER.—The steamer Princess Louise leaves early to-morrow morning for New Westminster with about 300 tons freight. She will cross over to Nanaimo and bring down the barque Princess Royal to Esquimalt to load oil, furs, etc., for London.

COUNTERFEIT.—The chief of police has in his possession a well executed counterfeit American silver dollar. The die is almost perfect; but the greasy feel of the coin and its want of ring when thrown upon a hard substance betray its character.

COMMENCEMENT OF WORK.—Mr. A. J. McLellan, the well-known contractor, went up yesterday morning to Yale to complete arrangements for cutting and clearing out timber on the Port Moody section of the C. P. R.

INCORRECT.—The report that the government had resigned, is circulation yesterday, was entirely incorrect. The present ministry never resigns. If defeated they would not even be resigned to their fate.

THE new schooner W. P. Sayward was hauled alongside the H. B. Co. wharf yesterday morning where she is taking in rigging, spars, etc.

No police court yesterday. Evil doers and disturbers of the public peace are remarkably quiet.

THROUGH THE ICE.

Sad Drowning of Two Hudson Bay Officials.

The Manitoulin, Algoma, *Expositor*, of the 25th ult., brings particulars of the drowning of Mr. Alex. Sinclair, factor of the Hudson Bay Company's post at Lacloche, and Mr. George Goldsworthy, his bookkeeper, which occurred a few days previously a short distance from Lacloche. It appears that Mr. Sinclair, having some business to transact with Mr. Henry Corbier, of West Bay, who happened to be at the time at Sagamuck, started with his bookkeeper to drive to the latter place after dark. Their proper course was close along the shore, but owing to the darkness of the night they lost their way and got out on the bad ice in the steamboat channel. From the position in which the horse was found it seemed as if he had plunged suddenly into open water, swam some twenty yards and then climbed up on the face of a rock at the other end of the opening. The rock was about two acres in extent but as there is a depression in it filled with ice immediately in front of where the horse got on the animal was afraid to venture further, and so remained with his four feet gathered close together, and with the cutter hanging over the rock, till found twelve hours later. The body of Goldsworthy was found with the coat half off within a few feet of the rock in about seven feet of water, but Sinclair's body was found where the cutter first went in. The bodies were taken out and interred at Little Current the following Friday, the funeral being attended by a large number of sorrowing friends. Alex. Sinclair had been in charge of Lacloche, the chief post in the district, for two years, and had been employed at the post for about four years. He was born in the service and had spent his whole life in it. His father had also been an officer of the company and was killed by Indians while in its service. He was about forty years of age and leaves a mother, wife and one child at Lacloche, and relatives in Winnipeg and Brockville. Geo. Goldsworthy was bookkeeper at the post and had been at Lacloche for about six years. He was a young man without family and so far as can be ascertained all his relatives are in England. Geo. Garbutt, late of Little Current, is now the only surviving employee of the Company at the post, and he has taken charge of everything pending the arrival of an officer from the nearest post, one hundred miles away.

The Future.

The London *Morning Post* in an editorial on Lord Lorne's speech at the opening of the Dominion Parliament says there is abundant testimony of the quality of the cereals of Manitoba and the valley of the Saskatchewan. As regards emigration, it cannot be doubted that the right sort of man will make his way. The agriculturalist will there be under the protection of the British flag, and his sons may become legislators for a mighty British American Empire, established between the old Maritime Provinces and Vancouver, the chief factor being the Canadian Pacific Railway.

FROM PORT TOWNSEND.—The steamer North Pacific arrived at 3 o'clock yesterday afternoon from Tacoma and way ports. Capt. Wilson reports a very rough trip across, against a strong headwind. The storm yesterday morning was heavy on the Sound.

FOR THE STEAMER.—Copies of *The Weekly Colonist* for mailing by the steamer to-morrow may be had at *The Colonist* stationery store and at the city bookstores. It is an excellent number and contains a double supplement. Price 12½ cents each. By the year, $3.

LAMSON CONVICTED.

A Verdict Returned After a Brief Consultation.

THE JURY IN TEARS.

LONDON, March 14, 1882.

In the trial of Dr. Lamson for the murder of his brother-in-law, Mr. Montagu Williams concluded his argument for the defence to-day. He pointed out that it had been proved that Percy John had suffered from neuralgia and rheumatism, for which aconitine is a remedy. There was a missing link, he said, in the case of the prosecution—namely, that it was not proved that the quinine powders containing aconitine found in the possession of the deceased were given him by the prisoner, while there was no doubt that he supplied him with the other innocuous ones which were found. Mr. Williams' peroration was very pathetic. He referred to the miserable future of the life of the prisoner's wife if he should be convicted and appealed to the jury to judge as they would be judged.

THE REPLY.

Sir Farrer Herschell, Solicitor General, replying on behalf of the prosecution, said he thought the jury might at once dismiss the idea that the death of John was due to natural causes. He argued that, though it was difficult to advance precedents concerning aconitine poisoning, the result of the analysis was decisive as to the existence of aconitine in the viscera of the deceased, which could only have been supplied by the prisoner.

THE CHARGE.

Mr. Justice Hawkins then commenced summing up. He said that the prisoner was entitled to the benefit of any doubt. His charge, although disclaiming any intention of anticipating the decision of the jury, seemed to be against the prisoner. He mentioned the latter's anxiety to leave the house five minutes after he had administered what the prosecution allege was a poisoned capsule to the deceased.

THE VERDICT.

At the conclusion of Justice Hawkins' charge the jury retired. They were only out half an hour. They returned a verdict of guilty, and the prisoner was sentenced to death. Several of the jurymen were crying when they re-entered the court room, and others of them were ghastly pale. When the verdict was pronounced Dr. Lamson clasped his hands together and seemed for a moment in despair; but he quickly recovered his self-possession, and, folding his arms, in a clear voice and with eyes uplifted, slowly and deliberately said, "I protest my innocence before God!" When Justice Hawkins had concluded passing the sentence Dr. Lamson, half throwing himself back into the arms of the warders, was almost lifted from the dock. He was removed to-night to the Wandsworth jail, where he will remain until the day of execution.

EDITORIAL COMMENTS.

The *Times*, in an editorial on the verdict in the case of Dr. Lamson, says: "It would be difficult to find an example in which the proof of criminality was more complete. The conviction of Dr. Lamson may contribute to the safety of many lives which his acquittal would have placed in peril."

NEW YORK, March 26.—Each day brings news of developments as to the inefficiency of the Chinese bill. Lawyers say it can never be operative, but can be evaded with the greatest ease. It seems to be intended but as an entering wedge, and subsequent legislation will be absolutely necessary to carry it out.

CHICAGO, March 26.—There are conflicting reports as to Mr. J. H. Haverly's solvency. They originated partly from ignorance and partly in malice, but the facts are known to a very few close-mouthed persons. These facts seem to be that Haverly is out of health, and that some of his ventures have not made enough money to pay expenses, and that he has become a little cramped and has borrowed a considerable sum of a gentleman who during his absence will act as his agent.

CHICAGO, March 27.—The Canadian guests arrived yesterday, and were on Change at 1 o'clock. VIRGINIA CITY, March 26.—About 6 o'clock this morning John Hoffman, an old resident of the Comstock, was found in an unconscious condition, with symptoms of poisoning. Doctors found he had taken laudanum. He died about 6 o'clock this evening. Hoffman was the man who was struck on the head with a slugshot by Caldwell Bros. in an attempt to rob his saloon.

SHASTA (Cal.) March 27.—Brincard and Howry, who have been prospecting about 7 miles from Shasta, near Centerville, struck a ledge last week and took out $1500 on Friday. Ten days ago miners near Whiskey Gulch took out $1500 in two pans of dirt. A good many of our townspeople went to the mines this afternoon and considerable excitement prevails.

SAN FRANCISCO, March 27.—The police to-day heard that two Chinese lepers had taken up quarters under the building near the corner of Pacific street and Sullivan's alley. They found one of the sufferers there. He said that his mate had gone to forage on the neighboring swill barrels for bread as their countrymen offered them no assistance. The health officer was notified and took the sufferers to the pest house.

SAN FRANCISCO, March 27.—An Oakland dispatch says the powder mills at Stege Station, Alameda County, are blown up. Particulars later.

LATER.—News from Oakland is to the effect that an explosion occurred at the Berkeley Black Powder Works. The buildings are burning. Medical assistance is asked. Several doctors have gone over. The men are mostly white employed at the works.

Complaints are filed to day against about six hundred violators of the Sunday law.

SAN FRANCISCO, March 27.—The explosion across the bay this morning occurred in the granulating house of the Vulcan Powder Co., where the manufacture of black blasting powder was in progress. A fire broke out in the room, communicating almost instantly with the powder, only a small quantity of which was in the building. A blast of flames, however, rushed across the passage separating the granulating from the drying house. In the latter were about three tons of powder stored, which at once exploded. The explosion was not heavy, and windows of buildings not 200 yards distant were not broken. The dry house was blown to pieces, killing and wounding all the men at work there.

THE DRYDOCK INQUIRY.

RESIDENT ENGINEER TO C. C. OF LANDS AND WORKS.

ESQUIMALT, Sept 5th, 1881.

SIR,—With reference to a communication from Messrs. F. B. McNamee and Co., contractors for the Esquimalt graving dock, dated Aug. 31st, 1881, and addressed to your department requesting the government to sanction the substitution of another engineer in place of the present incumbent to work and look after the government pumps and machinery.

The letter above referred to having been submitted to me to report on. I beg to state Mr. Archibald Muir the engineer at present in charge of the pumps has occupied that position since December 1878, that he was employed by the government under my direction in the erection of and subsequently working the pumps and that he has performed his duties well and faithfully from the day of his appointment to the present and to my entire satisfaction.

I may further state his wages have been at the rate of $3 50 per working days of 10 hours which amount I consider is an equitable remuneration for his labors and responsibilities not only in working the pumps but in keeping in good order the still more valuable pumping machinery at present unerected and I would therefore decidedly disapprove of recommending the appointment of an untried man however suitable he might be on the score of economy.

I am surprised at the statement that a change of engineers would cause the labors of the contractors to proceed more satisfactorily, for I was under the impression that Mr. Muir in looking after any mechanical work required at the works, beyond his duties as engineer in charge of the pumps, had already made himself particularly useful in many ways to the dock contractors, for instance in repairing the donkey engine and boiler used for hauling purposes and in taking the same to pieces and re-erecting on two different occasions, he has also frequently acted as engineer on board the steam tug and water boat Lily and is the only man in the contractors' employ who holds a certificate from the Dominion steam boat inspector entitling him to act in that capacity.

Without wishing, then in any way to interfere with the contractor or to hamper them directly or indirectly in the conduct of their contract I would in the present case suggest the advisability of their request being refused as I feel confident they cannot get a more steady or able man who while looking after their interests will not neglect that of the government.

L. AND W. DEPT. Sept 6th '81.

GENTLEMEN,—I have the honour to acknowledge the receipt of your letter of the 14st ult., requesting that Mr. A. Muir the engineer in charge of the pumping machinery at the Esquimalt dry dock might be discharged for reasons therein set forth.

Your letter was referred to Mr. Bennett the resident engineer for his report from which the enclosed is an extract: "Under the circumstances I do not feel justified in removing Mr. Muir."

Progress on dock very unsatisfactory and frequently complained of, but complaints have been disregarded here. Please attend to this as continuance of present delays cannot be longer permitted.

(Signed) GEO. A. WALKEM.

MCNAMEE & CO. TO C. C. OF L. AND W.

MONTREAL, Sept. 14th 1881.,

SIR,—We beg to acknowledge your telegram of the 13th inst. complaining of the rate of progress on the graving dock. We regret very much the nature of your telegram as this is the first communication in the shape of a complaint that we have received and in the absence of same naturally concluded that there was no cause for it. We have this day written to Messrs. Robertson, Huntington and Nicholson formally notifying them that if the strict terms of the contract are not adhered to in connection with an agreement with the government we shall immediately take such action as we may deem necessary in the premises.

(Signed) F. B. MCNAMEE & CO.

C. C. OF L. AND WORKS TO MCNAMEE AND CO.

L. AND W. DEPT., Sept. 13th, '81.

GENTLEMEN,—Your attention has been several times drawn both by letters and verbally to the very slow progress being made in constructing the dock. Notwithstanding this fact the resident engineer has been obliged as he states, to report by letter of to-day's date, that progress has not only not been hastened but has in fact slower of late than ever. He further remarks that the dock instead of being completed in contract time in October 1882 will barely have been commenced by that time if you are permitted to proceed with the works at the present rate of progress. The engineer also complains of the inadequacy of men and material (including brick and sandstone) now on the works and considers them to be "wholly disproportionate to what they should be." The sandstone should be got out and already at once for use. Although you Mr. Robertson promised me in July last as well as lately on my visit to the works on the 5th inst. to have the sandstone quarried, &c., without delay; no steps I am informed have been taken in accordance with these assurances. There is no pretence for delay in this matter as you have been notified from time to time to proceed with your contract as it stands. I think therefore that Mr. Robertson's promise will be carried, and that very much greater progress than is now shown on the works will take place immediately, otherwise I shall be compelled to enforce the clauses of the contract which are provided to meet the causes of complaint now existing.

I would remark that the Board of Trade of this city considered it their duty as representatives of provincial commercial interests to lately call the attention of the Dominion minister of railways, &c. to the slow progress you are making. The address containing the allusion referred to has been published in the newspapers and has probably been read by you. I mention the circumstance to show you that the complaints with respect to your management of the works are not confined to this department, but are widespread, and as I believe almost universal in this section of the Province. I regret to be obliged to write to you in the present strain. I would much rather be in a position to congratulate you upon the rapid prosecution of the work than be compelled to complain of your dilatoriness and repeated breaches of your contract.

(Signed) GEO. A. WALKEM,
C. Commissioner.

W. BENNETT TO C. C. OF L. and W.

ESQUIMALT, Sept. 13th, '81

SIR,—I think it right to inform you that the slow rate of progress in the construction of the graving dock to which I have lately had occasion to call your attention has in no way been hastened by my last report, but on the contrary the number of men employed few as they then were are now less.

Yesterday but three bricklayers were at work and only a small gang employed concreting, and having in view the quantity of work to be done, the number of men in the contractors' employ and the absence of anything like a proper supply of materials is wholly disproportionate to what it should be. I feel sure at the present rate of progres the dock instead of being completed in contract time namely, in Oct. '82, will scarcely have been commenced at that date unless a great change for the better is so made.

(Signed) W. BENNETT.

MCNAMEE & CO. TO C. C. OF LANDS AND WORKS.

ESQUIMALT, 13th Sept., 1881.

SIR,—We beg to acknowledge the receipt of your letter of the 27th ultimo, pointing out that the works are not progressing, as rapidly as would appear to be necessary, and especially directing our attention to the necessity of having a sufficient quantity of sandstone on the dock site.

In reply we beg to state that on the 6th of April last you addressed us a letter enclosing a report of committee of the legislative assembly recommending the substitution of granite for brick and sandstone, upon the conditions stated in the report, and requested to be furnished with an estimate in writing of the cost of the proposed change, at your earliest convenience, in order that the same might be fully considered.

In a letter dated the 9th April, 1881, we set forth the amount for which we were prepared to substitute granite for sandstone and brick in the construction of the graving dock.

Receiving no reply to that letter and being aware of the importance of getting material on the ground we again referred to the subject in a a communication dated 10th June last, as follows: "You will also be good enough to remember that in answer to your letter of the 6th April last requiring us to furnish you with an estimate, in writing, of the cost of substituting granite for sandstone and brick, we laid before you on 9th April, an estimate of the cost of making the proposed change. We have been since then waiting your decision in order to procure either material."

We are therefore anxious to know with as little delay as possible which material is to be used in the dock work.

C. C. OF L. AND WORKS TO MCNAMEE & CO.

VICTORIA, 15th Sept., 1881.

GENTLEMEN,—Your letter of the 13th inst. reached this department this morning. It connection with its remarks, I beg to state that your Mr. Robertson at an interview he had with me early in July last, informed me that granite would not be substituted for sandstone, as the cost of the charge was too great. I subsequently asked Mr. Robertson, who, I understood, had charge of the masonry, and stone work connected with the dock to get out the sandstone and open the quarries as soon as possible. Since then I repeated request and on the 5th instant while inspecting the works I called his attention to the delay in getting out the sandstone. On the first occasion, he said, there was no necessity for the immediate quarrying of the stone as if would have to lie unused for some time until the excavation, etc., should be much further advanced. This he also stated at the second interview I had with him, but he promised to take steps to have the sandstone got out, as I informed him that the resident engineer pressed for this portion of the work being done without further delay; on the 5th instant I reminded him of his promise, and he assured me that the sandstone would be got ready as soon as possible Under these circumstances a written reply to your letters of April and June last was wholly unnecessary, and I trust that you will be good enough to have the promises refeared to carried out, and work in the dock pushed forward as possible. I may add that the interviews with Mr. Robertson, which are above referred to, took place on the dock works in visits of inspection by me, and he has never for a moment pretended that he had not been informed by me that granite would not be substituted for sandstone.

WORK ON THE DRYDOCK

Is progressing. White Labor there as at KURTZ'S FACTORY is triumphant.

TWENTY COTTAGES built for and occupied by White Cigar Makers and their Families.

TWELVE of "OUR BOYS" are kept off the streets, cultivating industrious habits, making good wages and learning the trade as Cigars Makers.

Arrangements are also being made for the immediate employment of OUR GIRLS as Cigarette Makers.

Ask for KURTZ'S WHITE LABOR CIGARS and take no other, and thus encourage HOME INDUSTRY, at the same time keeping the money in the country.

All branches of business are stimulated by the introduction and ENCOURAGEMENT OF WHITE LABOR.

Ask the Grocers, Butchers, Tailors Jewellers, Bootmakers, and ask the White Laborers bone and sinew of the country, and they will tell you so.

On the other hand see the Chinese cigar and shoemakers coming from their respective shops. They wear the same old wooden clogs, blue jean smocks, and baggy pantaloons which they brough with them from China. They live and work in hordes, crowding themselves in small and badly ventilated tenement houses, permeating fumes of smoking nut oil, bad tobacco and cheap opium. Drinking tea and munching rice, what we call nasty they call nice. Their wages are hoarded up and taken or sent to China. These filthy habits and practices are particularly objectionable in the manufacture of Cigars because tobacco is the most sensitive and absorbent of plants and requires to be manipulated in rooms free from taint and noxious vapors: *ride* our Factory.

NOTE—Certain parties are at the present time engaged in putting Cigars of an interior quality in our boxes and selling them as Kurtz's Own.

The Law on this subject is very stringent and will be strictly enforced. Preliminary steps have already been taken.

ANNUAL REPORT.

In making their Annual Report the Directors have to inform the Subscribers that the Government has built a Convalescent Home in the Hospital grounds, a part of the cost amounting to $451,65, was however paid by the Hospital Board. This building is now ready for occupancy, but cannot be made use of until provision is made for furnishing it.

The Directors have been specially careful to keep the Hospital Building in a thorough state of repair, but some additional outlay will be necessary during the current year for certain improvements and for beds, bedding, etc.

The Directors have to report that the affairs of the Hospital have been concluded with economy during the past year, and on this point refer the Subscribers to the Treasurer's Report.

The Report of the Medical Officer, which accompanies this, speaks for itself.

In closing this report the Directors have again to thank Messrs. Dunsmuir, Diggle & Co., and the Vancouver Coal Company for liberal donations of coal, and also the Local Government and Subscribers for generous support, and Mr. Russel for services in auditing accounts, and to express their satisfaction with the zeal and efficiency of Mr. and Mrs. Gilbert Robinson and the other officers of the Hospital.

J. H. TURNER, President.

ABRIDGED REPORT OF THE VISITING SURGEON.

TO THE BOARD OF DIRECTORS OF THE ROYAL HOSPITAL:—Gentlemen,—I have the honor to submit to you the following statement of the result of medical and surgical treatment of patients under my charge in Royal Hospital during the last twelve months. As will be seen there is a slight decrease in the number of in-patients admitted which is accounted for by the fact of several incurables having been admitted, who occupying beds, have excluded many who should have gained admittance had there been beds vacant, and in consequence of this fact the number of out-patients is in excess of ordinary years.

Number of patients admitted to Royal Hospital for the year 1881:—

In-Patients	89
Out-Patients	200
	289

Of whom 14 have died from following causes:

Exhaustion	3
Chest disease	4
Kidney disease	2
Fever	1
Apoplexy	1
Aneurism	1
Cancer	2
	14

I cannot conclude this Report without testify to the admirable manner in which the affairs of the Hospital are conducted, which reflects the highest credit on the Superintendent, Mr. Robinson, and the Matron, Mrs. Robinson, I have also to thank such of the professional brethren as I have had to call upon, who have always most willingly rendered me my assistance I required. As also Mr. R. B. Thompson, dentist, who has frequently been of great service to me in cases where dentistry was required. I have the honor to be, Gentlemen, your obedient servant,

J. B. MATTHEWS.

Victoria, B. C., 13th March, 1882.
I hereby certify that I have examined the Treasurer's accounts and found them to be correct, and supported by proper vouchers. (Signed),
THOS. RUSSELL, Auditor.

When it is borne in mind that the foregoing figures represent the entire cost of carrying on the Hospital Establishment, including repairs, painting, etc., and that the average number of inmates was much higher during past year than ordinarily, whilst serious cases under treatment have involved unusual expense for extra nursing, it will be readily seen that the Hospital is carried on with careful economy.

The expenditure of the past five years compare as follows:

1877-78	$5,665 80
1878-79	5,062 37
1879-80	5,482 39
1880-81	5,401 24
1881-82	5,636 27

Those figures are irrespective of outlay for Convalescent Home, upon which was paid the following:—

In 1880-81—$970 paid for purchase of land adjoining Hospital; title vested in the Provincial Government.

In 1881-82—$451,65 paid to complete the contract price for construction of Convalescent Home building, the Government vote having been deficient by that amount.

Referring to the account for the past year the items for extra nurses, and wines and spirits, shew the principal increase as compared with last year's expenditures, and this outlay was unavoidable in consequence of the character of the cases under treatment.

W. C. WARD, Hon. Treasurer.
